

Animal Footprint Detective

Hey there, it's Lou!

Did you know that animals have unique footprints, just like we have unique fingerprints?

In this activity, we will match the footprints to the animal that made them! So, put your detective hat on, and let's discover who's been walking, hopping, and trotting around.

Instructions

Draw a line from the footprint to the animal.

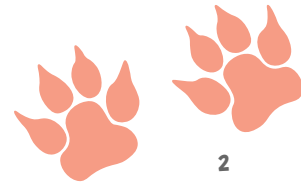

Pay close attention to the shapes, sizes, and patterns.

Ready to put your detective skills to the test? Let the matching fun begin!

Bear

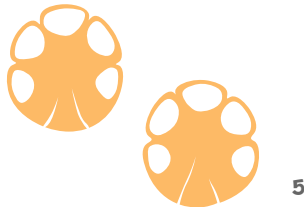

Woodpecker

Dog

Elephant

Frog
